

The Cyber Savvy Café: Ssn 1 Ep 13

## Virtual Desktop: Take it on the Road

Utilizing latest technologies to turn your team into a dynamic mobilized work force.

### SHOW NOTES

Why and how a virtual desktop environment can take your business to the next level--especially if you have people working from home.

0:56 What is Windows Virtual Desktop? (WVD)

1:35 How does this differ from working locally, on a desktop or laptop and how does it increase work performance for employees working remotely?

4:23 Discussion of some of the risks that remote working poses to corporate networks, and the solutions WVD offers.

5:55 Pay for what you use: the cost-savings of WVD.

8:25 Solution for older computers with poor performance; aging hardware can still access the virtual desktop and perform well.

9:30 Using Microsoft's internet connection, as opposed to your home network's connection.

10:16 Discussion of how to migrate to WVD

11:20 How popular is the WVD environment?

12:07 We have a testimonial from a client on our Business Restructuring page on the website, who switched to WVD during Covid 2020.

For more information about the process of switching over to WVD, visit our website and scroll down to Barry E's video:

<https://eastatlanticsecurity.com/business-restructuring/>

12:51 Why some companies use WVD exclusively.

14:00 Info on the internet you can peruse, and Microsoft has a "Get Started Today" button on their website that you can look into.

14:26 Great solution for some of the issues companies are facing right now, discussion of further benefits of WVD.

14:42 Additional benefit: Good exit strategy for employees who leave the company, helps ensure that your data stays secure.
